A Special Needs Plan

What is Amida Care?

Amida Care is a non profit, Medicaid, HIV Special Needs Plan (SNP). An HIV SNP is a health plan specifically designed for Persons living with HIV/AIDS (PWHA).

Amida Care works with Members and providers to improve access to care. By having nurse Care Coordinators, Member Service Representatives, Community Case Managers and other Plan staff available to assist Members, it is easier for them to get the care they need and to stay in care.

AMIDACARE

Members get to:

* Choose their providers!

Amida Care's extensive network includes:

- More than 90 experienced HIV Specialist PCPs;
- Over 4200 Specialty Care Providers;
- Over 900 Mental Health and Chemical Dependency Providers;
- Nearly 400 Ancillary providers (eg. home care, physical therapy, transportation etc.); and
- Community Based Organizations that provide Case Management, legal, housing and supportive services.

Many of these providers see Members in their private offices!

* Receive Health Information and Timely Appointments!

Amida Care helps you and your family get:

- medical care;
- eyeglasses;
- medical equipment;
- transportation; and
- information you need to make decisions.

You can see as many providers as you need to - on the same day!

* Attend Special Programs!

Because living with HIV is about more than medical appointments and medications, Amida Care offers MONTHLY HEALTH PROGRAMS that include medication, dance, acupuncture, exercise, massage, and healthy cooking; conducts an ANNUAL LIFE CELEBRATION; and publishes an ANNUAL CALENDAR OF EVENTS that include Members' artwork!

What do Members say about Amida Care?

"I'm treated with respect and I like the appointment reminders and Metrocards to get there..."

Monique; AC Member since 2007

"When I was going through a hard time in my life, Amida Care was there and gave me the support I needed..."

Jimmy; AC Member since 2004

"I've built a strong rapport with my Amida Care doctor. I'm happier today. I'm more positive about being positive and I'm healthier..."

Cecilia; AC Member since 2005

Assistance for Members is just a phone call away, 24 hours a day, 7 days a week.

What else should I know about HIV SNPs?

- Joining an HIV SNP like Amida Care is voluntary. If you are HIV positive and receive Medicaid benefits you have many choices. You can keep your regular Medicaid benefits, or you may apply for (remain in) a Medicaid Managed Care Plan, or you may apply for a HIV SNP like Amida Care.
- There are other HIV SNPs that you can choose.
- SNPs must offer a choice of at least 3 Primary Care Providers.
- Before selecting a PCP, confirm that he or she takes the plan you are thinking of joining and that he or she is accepting new patients.
- Your PCP will be in charge of your healthcare. Should you need a service that your PCP cannot offer, he or she will refer you to a specialist within the plan.
- All PCPs for SNP Members with HIV must be qualified as HIV specialists.
- Newborns of Amida Care Members will automatically be enrolled in the plan. However, moms may choose to disenroll their newborns at any time.
- To learn more about HIV SNPs, call the New York Medicaid CHOICE Helpline at 1-800-505-5678, (TTY/TDD) 1-888-329-1541).
