

Diabetes Screening for People with Schizophrenia or Bipolar Disorder Who Are Using Antipsychotic Medications (SSD)

Measure Description

Diabetes screening for people with schizophrenia or bipolar disorder who are using antipsychotic medications (SSD).

Numerator Compliance

A glucose test or an HbA1c test performed during the measurement year.

Best Practices

- ★ **Order** a diabetes screening test every year and build care gap “alerts” in your electronic medical record.
- ★ **Follow up** with patients to discuss and educate on lab results.
- ★ **Coordinate** care with patients’ other providers.
- ★ **Outreach** patients who cancel appointments and reschedule them as soon as possible.
- ★ **Encourage** shared decision-making by educating patients and caregivers about increased risk of diabetes with antipsychotic medications.
- ★ **Discuss** with patient the Importance of screening for diabetes.
- ★ **Educate** the patient on symptoms of new onset diabetes.
