

# Social Need Screening and Intervention (SNS-E)

\*Electronic Clinical Data Systems (ECDS) Measure

## Measure Description

The percentage of patients who were screened, using prespecified instruments, at least once during the measurement period for unmet food, housing and transportation needs, and received a corresponding intervention if they screened positive.

- Food Screening. The percentage of patients who were screened for food insecurity.
- Food Intervention. The percentage of patients who received a corresponding intervention within 1 month of screening positive for food insecurity.
- Housing Screening. The percentage of patients who were screened for housing instability, homelessness, or housing inadequacy.
- Housing Intervention. The percentage of patients who received a corresponding intervention within 1 month of screening positive for housing instability, homelessness, or housing inadequacy.
- Transportation Screening. The percentage of patients who were screened for transportation insecurity.
- Transportation Intervention. The percentage of patients who received a corresponding intervention within 1 month of screening positive for transportation insecurity.

<b>Food insecurity</b>	Uncertain, limited, or unstable access to food that is: adequate in quantity and in nutritional quality; culturally acceptable; safe and acquired in socially acceptable ways.
<b>Housing instability</b>	Currently consistently housed but experiencing any of the following circumstances in the past 12 months: being behind on rent or mortgage, multiple moves, cost burden or risk of eviction.
<b>Homelessness</b>	Currently living in an environment that is not meant for permanent human habitation (e.g., cars, parks, sidewalks, abandoned buildings, on the street), not having a consistent place to sleep at night, or because of economic difficulties, currently living in a shelter, motel, temporary or transitional living situation.
<b>Housing inadequacy</b>	Housing does not meet habitability standards.
<b>Transportation insecurity</b>	Uncertain, limited or no access to safe, reliable, accessible, affordable and socially acceptable transportation infrastructure and modalities necessary for maintaining one's health, well-being or livelihood.

Eligible screening instruments with thresholds for positive findings include:			
Food insecurity instruments	Food Insecurity Instruments	Screening Item LOINC Codes	Positive Finding LOINC Codes
	Accountable Health Communities (AHC) Health-Related Social Needs (HRSN) Screening Tool	88122-7	LA28397-0 LA6729-3
		88123-5	LA28397-0 LA6729-3
