Best Practices

- ★ **Utilize** annual wellness visits to conduct a complete sexual history assessment and order test.
- ★ **Screen** at any visit where oral contraceptives, sexually transmitted diseases (STD)/sexually transmitted infections (STI) or urinary symptoms are discussed.
- ★ **Use** phone, email, or other means to have members come in for their routine yearly visit.
- ★ **Encourage** the members to make an appointment for STI screening once a year (or, to keep their appointment if they indicate they already have one).
- ★ **Reschedule** no shows immediately.
